

Bug-a-boo

With and Without D.D.T.

Kills all 9 major pests

Why be pestered with pests—when this super insect spray with or without D.D.T.—gets rid of 'em for good? Bug-a-boo—perfected by years of research in Socony-Vacuum's great laboratories—far exceeds U.S. Government standards for an AA grade insect spray. So powerful it's sure death even for hard-to-kill roaches and moth larvae!

Bug-a-boo kills all nine major pests, yet it is harmless to humans, and will not damage home furnishings, when used as directed. It's pleasantly pine-scented.

For those who prefer it, Bug-a-boo is available with 3% D.D.T.—a product containing not only Bug-a-boo's time-tested,

KILLS
FLIES • ANTS
MOTHS • ROACHES
MOSQUITOES
BEDBUGS
SILVERFISH
WATERBUGS
FLEAS

• Available with and without D.D.T.

insect-killing ingredients, but all the D.D.T. that's required for effective residual deposit, and the full amount considered justified for home uses. Caution: Use Bug-a-boo with D.D.T. carefully, according to directions.

Get Bug-a-boo with or without D.D.T. today. It's the sure way to say goodbye to bugs!
